

# HORIZON YACHTS' ALL-NEW V77 CMY COCKPIT MOTOR YACHT

The much-anticipated Horizon V77 Cockpit Motor Yacht embodies the best of both worlds: unparalleled comfort and an owner-operator's desire for maximized outdoor living.

Recognized for its quality, optimised functionality, and world-renowned Jonathan Quinn Barnett (JQB) design, the V-series now offers a whole new level of versatility with a dedicated cockpit. Spanning just over 77 feet, the vessel's remarkably voluminous interior. Large windows on the main deck and cabins create an inviting atmosphere for any adventure, be it cruising the Bahamas or exploring the West Coast.

A meticulously designed cockpit forms the centrepiece of this collaborative effort between fishing enthusiasts, yachting professionals, and Horizon's design team. This versatile space caters to both leisure and functionality, featuring an array of rod holders, electric reel outlets, duel live bait

transom wells, and ample storage to ensure equipment is readily accessible yet neatly stowed away.

Reinforcement in the upper deck allows for multiple varieties of outriggers to be installed, depending on the owner's preferred style of fishing. The hydraulic fold-down transom allows for multi-use purposes, including ease of access to water, tenders, or water toys.

The expansive aft deck flows effortlessly into a cosy salon, while the contemporary, well-equipped galley features an island with three barstools and a forward dinette for intimate meals. Below deck, the full-beam ensuite master provides a luxurious retreat, complemented by an ensuite twin cabin with a sliding bed to starboard, a bunk

cabin to port, and a forward ensuite VIP. Crew quarters located aft ensure guests' privacy, with direct access via the cockpit. Breath-taking views from the enclosed bridge with two helm chairs are paired with L-shaped seating that beckons with plush comfort. The inclusion of a day head ensures convenience for guests, while the sky lounge layout caters to some clients' owner-operator lifestyles. The spacious boat deck is primed for entertainment and features an inviting U-shaped bar. The Horizon V77 CMY sets a new standard for transforming the boundless ocean into an exclusive playground. This innovative vessel blends impeccable luxury with functionality.
