

Horizon Power Catamarans

The Horizon Power Catamarans' PC60 with a new Portuguese Deck configuration (61' 7" LOA; 24' 6" beam) will debut at the 2025 Palm Beach International Boat Show. The top deck design extends the exterior space with a centerline passage that leads from the flybridge to the foredeck where twin built-in settees and hi-lo tables are ready for convertible dining and lounging. The PC60 is a four-stateroom yacht with an optional on-deck master stateroom configuration and a showcase of fine stonework and finishes. horizonpowercatamarans.com
